UC1, margin 40 s (σ 20-60 s)
UC1, margin -30 s
UC4, margin 60 s
UC4, margin 0 s
(a) selected = MC best (identical or tied)
(b) gap: mean (marker), 90th pct (bar), max (tick)
(c) UC4: a bound at s loses > 0.005
fraction of instances
P_oracle − P_selected, held out
sampled realizations n
hop bound = shortest feasible + s
